

Cabinets & Shelving

A choice of five different cabinet colours allow customers to further personalise their kitchens.

Cabinets

A cabinet is the frame of your kitchen. It provides space for all your kitchen storage needs. By choosing matching colours or making a statement with a contrasting colour, this frame can blend in with the rest of the kitchen.

Shelving allows a space that may seem enclosed feel more open and airy, whilst maintaining functionality.

Shelving

Adding shelving to your kitchen is a cost-effective, simple way of mixing up the look and feel of the space. Choosing a contrasting carcass colour to suit the rest of the kitchen is an easy way of making an eye-catching feature.
